## General Description

---

The Office of Continuing Education, Workforce Development and Strategic Community Partnerships at Kingsborough Community College (KCC) delivers workforce training and college readiness programs to under- and un-employed New York City residents, providing the training and skills necessary to advance their careers or continue toward a higher educational goal. The Center is committed to providing our students with the most relevant education, training, and hands-on employment services that will positively serve their long-term individual, educational, and career goals.

Kingsborough Community College (KCC), CUNY is looking for a part time User Experience/Project Manager instructor to teach in our CUNY Techworks, department of labor funded training program.

The instructor is responsible for supporting/teaching CUNY Techworks students entering the User Experience Design Field. The ideal candidate will be a seasoned veteran of the UX industry/Project Manager, with a strong understanding of both the technical aspects and the culture within the field.

Students will learn how to engage with clients and team members in the development of a design based project and gain insight into the Media and Design based industry sector. They will review the steps involved in ideation, concept development, user research, subject area research, storytelling, and design/development and presenting. Key skill sets include: communication both verbal and written, project management, presenting data driven evidence, professionalism and presentation, client engagement and portfolio development. Students will be introduced to some of the career pathways in this field and the businesses and institutions of which they may serve in a professional capacity.

Instruction Days: Feb. 2nd - April 22nd in the evening from 5:00 to 8:00 PM. Once a week totaling 36 hours of instruction.

We seek a competent adult education teacher with extensive experience in User Experience and/Project Management

- Ensure that instructional activities are clearly related to academic goals and learning objectives for skill

development, and are documented in lesson plans, which are to be submitted before the first cycle of training.

- Provide targeted whole group, small group, and/or individual instruction to students in order to help them develop skills needed to successfully earn a User Experience Portfolio.
- Conduct educational assessments (traditional and performance-based) and provide regular and prompt feedback to students regarding their progress.
- Establish and maintain an organized and supportive classroom environment where students actively participate and show respect for teacher and one another
- Confer with other program staff regarding any student/classroom issues
- Utilize the best practices in project-based learning
- Attend all program staff meetings

## Other Duties

---

Must have a demonstrated ability to work with struggling learners, and motivate/encourage them to persist towards their goals.

## Qualifications

---

Candidates must possess strong content knowledge.

Must be able to instruct and have experience in the following UX areas:

- Digital Storytelling
- Content Development
- Preparing for Client meetings
- Interactive Project Management
- Explore the design process for an interactive project from initial concept to completion.
- Design and develop responsive layouts for multi-device, and multi-channel applications.
- Collaboration/working in teams
- Presentation Skills

Bachelor Degree accepted, Master preferred.
