
Job Title	Technical TA, Tech Talent Pipeline
PVN ID	NY-2505-006824
Category	Instruction and Social Service
Location	NYC COLLEGE OF TECHNOLOGY
Department	Computer Systems Technology
Status	Part Time
Hourly Rate	\$20.00-\$20.00
Hour(s) a Week	19.00
Closing Date	Jul 01, 2025 (Or Until Filled)

General Description

The Tech Talent Pipeline Residency Program (TTPR) at CUNY City Tech is a highly regarded initiative aimed at providing computer science students with industry-relevant skills and experience. We are seeking a motivated Teaching Assistant (TA) to support the Winter Bootcamp Instructor in delivering a ten-week web development bootcamp. This role is an excellent opportunity for individuals passionate about education and technology who are interested in helping develop the next generation of tech talent.

Start Date: 2 June, 2025

End Date: 22 August, 2025

Location: New York City College of Technology (City Tech), CUNY, Brooklyn, NY (On-site)

Other Duties

As a Teaching Assistant, you will assist the instructor in various aspects of the bootcamp, including classroom management, student support, and project guidance. Your responsibilities will include, but not limited to:

- Providing support during lectures and hands-on project sessions
- Assisting students with troubleshooting issues related to coding, debugging, and web development projects
- Offering one-on-one or group assistance to students who need extra help understanding key concepts or completing assignments
- Assisting the instructor in grading assignments and projects
- Tracking and reporting student attendance and progress
- Contributing to a positive and inclusive learning environment by encouraging student participation and collaboration
- Attending TA team meetings and coordinating efforts with the instructor, tech advisor, and other TAs to ensure students are receiving adequate support

- Other duties as assigned

Qualifications

- Current enrollment in a web development or related field, or recent technical graduate
- Proficiency in JavaScript, HTML, CSS, and basic web development tools
- Familiarity with GitHub, SQL, and other technical tools relevant to web development
- Strong problem-solving skills and the ability to explain complex concepts in simple terms
- Experience in tutoring, mentorship, or teaching is preferred
- A passion for helping others learn and a commitment to creating an open, welcoming learning environment

Application Process:

To apply, please submit your resume and a brief cover letter detailing your interest in the role and any relevant experience. Shortlisted candidates will be contacted for an interview.
