
Job Title	Postdoctoral Research Associate
PVN ID	QC-1801-002328
Category	Research
Location	QUEENS COLLEGE
Department	Chemistry and Biochemistry
Status	Full Time
Annual Salary	\$40,000.00 - \$45,000.00
Hour(s) a Week	35
Closing Date	Mar 30, 2018 (Or Until Filled)

General Description

A postdoctoral position is available in the laboratory of Dr. Choi at Queens College – City University of New York. We are seeking a talented and highly motivated postdoctoral fellow with expertise in organic synthesis, medicinal chemistry, and/or chemical biology. The Choi laboratory conducts synthesis of small molecules, computer-aided molecular design, and chemical biology studies for the development of therapeutic candidates for human diseases. For more information of the research in the Choi laboratory, visit www.choiresearchlab.com.

The successful candidate will have a Ph.D. in synthetic chemistry or medicinal chemistry, and a strong background in multi-step organic reactions with experience of parallel synthesis is required. The fellow will carry out synthesis, purification, characterization, and identification of small molecule products, and the position will provide excellent opportunities for intellectual growth in computer-aided drug design, structure-activity relationship analysis, biochemical assays, DMPK study, etc.

If you are interested in conducting therapeutic development, computer-aided drug design, and chemical biology in the Choi laboratory, send your cover letter, research summary, and CV to Dr. Choi at junyong.choi@qc.cuny.edu. Review of applications will begin immediately and continue until the position is filled.
