<b>Job Title</b>	MRI Technologist
<b>PVN ID</b>	RC-2411-006567
<b>Category</b>	Research
<b>Location</b>	CUNY-ADVANCED SCIENCE RESEARCH CENTER
<b>Department</b>	Neuroscience Initiative MRI Facility
<b>Status</b>	Part Time
<b>Hourly Rate</b>	\$60.00-\$65.00
<b>Hour(s) a Week</b>	0.00-19.00
<b>Closing Date</b>	Jan 12, 2025 (Or Until Filled)

## General Description

---

The Advanced Science Research Center (ASRC) at the City University of New York (CUNY) is a 200,000 square-foot facility in upper Manhattan designed to promote collaboration among scientists in five areas of global research and innovation: nanoscience, photonics, structural biology, neuroscience, and environmental sciences.

The ASRC seeks a part-time MRI Technologist whose main responsibility will be weekday afternoon/evening and weekend neuroimaging. Average weekly schedule would be Monday, Friday 3-7pm and Saturday, Sunday for 4-8 hour shifts, with flexibility on exact days/durations from week to week.

Specific major duties and responsibilities include:

- Operate Siemens Prisma 3T MR system dedicated to research.
- Maintain an MRI safe environment for co-workers, research subjects, and personnel at all times. Screen all people who access MRI area.
- Select and operate equipment as directed.
- Report any equipment malfunctions, necessary adjustments, or repairs.
- Restore/provide access to data for ASRC researchers and collaborators.
- Maintain daily logs of research examinations.
- Assists in coordinating MRI scanner schedule
- Comply with policies and procedures protecting research subjects' rights for informed consent and the handling of confidential information as defined by the ASRC MRI Facility's rules and regulations.
- Perform other duties as assigned.

## Other Duties

---

Opportunity to learn neuroimaging research techniques is possible, including:

-EEG, tDCS, TMS, eye-tracking, etc.

## Qualifications

---

A preferred candidate should have:

- ARRT certification
- Experience in imaging children and general work experience involving children
- Knowledge of NMR physics
- Computer experience with Windows OS and Microsoft Office
- Familiarity with Siemens MRI operating console
- Excellent interpersonal skills
- Ability to work independently and as part of a team
- Experience in research/university setting a plus
