## General Description

---

The Baltimore Long Term Urban Watershed Study currently has an opportunity for a Project Assistant, working approximately 7-14 hours per week to help collect and process stream and soil samples in the field and laboratory.

The position begins approximately April 1, 2025 and concludes approximately October 31, 2025, with possibility of extension depending on availability of funding and performance. This is a temporary, hourly, non-exempt, non-benefited position.

Closing date is April 18, 2025 or until filled.

Position reports to Dr. Peter Groffman.

## Other Duties

---

## Qualifications

---

- Associates or Bachelor's degree in some area of Environmental Science required
- Be able to work independently and communicate clearly
- Have background in environmental science, hydrology, ecology, soils
- Ability to work outside during hot summer and cold winter conditions
- Be authorized to work in the U.S.

Finalist candidate may be required to successfully complete driving background record check.
