General Description

MISSION

Children need to spend their most critical years with dedicated, educated, trained, and well-compensated individuals in order to thrive. The New York Early Childhood Professional Development Institute leads the work to establish and implement an early childhood workforce system to ensure funding, standards and competencies, career development resources, qualifications and credentials, professional development (training and strengths-based coaching), and program quality assurance and improvement for individuals who work with young children throughout New York. Housed at the City University of New York, the Institute is a fast-paced, dynamic public/private partnership that is committed to the early childhood workforce across New York State.

QUALITYstarsNY is New York State's voluntary 5-Star early childhood quality rating and improvement system. Since its inception, QUALITYstarsNY has focused its evidence-based practices to ensure that young children in participating programs have access to excellence and families can trust the level of quality in the program they choose. Assessment, coaching, professional development, and a wide range of resources are made available to each site, enabling QUALITYstarsNY to support early childhood programs to earn higher star ratings.

GENERAL DESCRIPTION

The Rating Reviewer is responsible for the accuracy and consistency of the QUALITYstarsNY rating process for regulated early childhood programs participating in New York State's Quality Rating and Improvement System. QUALITYstarsNY completes a rating process for all participating programs to earn a 1-5 Star Level, then supports the continuous quality improvement work according to the program's priorities. The Rating Reviewer is responsible for reviewing documentation submitted by participating programs to assess the level of quality based upon a set of research-based Quality Standards. Reporting directly to the Rating Specialist, the Rating Reviewer will regularly communicate with the Rating Specialist about ways to enhance the system and monitor the system for consistency and best practice.
